A New Precious Treatment

The Spa

BLACK PEARL®

LUX MINERAL PURITY BODY

Treatment

The Lux Mineral Purity Body Treatment is a luxurious and exclusive body treatment designed to purify and replenish the skin's vitality. This transformation is due to the intoxicating salty scrub and healing mineral mud from the Dead Sea.

Black Pearl products are extremely powerful but also a sensorial experience thanks to the heady scent of lavender, patchouli and precious ingredients.

The treatment will include a facial massage performed with green amethysts; a symbol of purity. This purifying and intensely relaxing facial massage can be enjoyed whilst your body is wrapped in the exquisite, detoxifying mud.

The skin is prepared to receive this exquisite complex with balancing movements focused on the shoulder, neck and face and the experience will leave your skin silky, luminescent and purified on the surface, but inside as well.

After your shower, we begin a bespoke and exotic massage using The Black Pearl Devine 24 carat Body Butter; rich in nourishing plant extracts and 24 carat gold to complete the golden rebirth of your skin.
